

Task 3B:

A Brief Description of The Architecture

Please watch DAY 8 video

You have been tasked to deploy a static html document to S3 bucket. “Everyone” should be given a Read-Only access to the bucket.

The HTML code is [here](#)

Requirements:

- Implement the architecture above
- Use any name you want for your Bucket
- Adjust the permissions on the bucket appropriately

If all goes well, you should see a message similar to this when you browse the S3 endpoint:

Country	Capital
UK	London
NIGERIA	LAGOS

EXTRAS

- IaC (Terraform) should be used to build the infrastructure
- Code should be saved in SCM
